

Red Group's News

October 2015

Wow, this first term is whizzing by!

At the beginning of each year we looked at how easily germs spread and how important it is to wash our hands correctly.

Can you see the germs?

Look at my Bubbles!

Miu Miu using her brain to squeeze the puffy paint .

Our heart pumps blue and red blood around our bodies, Can you feel your pulse? Look at how blood moves from the heart.

Our lungs put oxygen into our blood

Mila measuring 23 ft. That is how long our digestive system is... or 5 of our friends.

As children get older their sleep patterns change. Here at Smartkids we understand this but know how important resting /sleeping is for children's growing bodies. At the beginning of the term we looked how essential rest is for our whole body!

We used our breath to blow bubbles and make pictures.

We looked at how our brain, heart, lungs, intestines, muscles, bones work and how they all need to rest to grow and become strong.

We had loads of fun experimenting with what our digestive system is like inside us.

Our stomach

Add vinegar (acid)

Add food and mix

Then squeeze into the intestines

You can feel all the goodness coming out in to the blood until there is nothing left and it comes out as poo.

After looking at our bodies we had fun remembering all about our 5 senses. For sight - we looked at our eyes and how important they are especially when doing an obstacle course. Luckily we had a helpful guide to guide us through it. Sound - we learnt about the ear and tried to guess different sounds. Taste and Smell was a lot of fun! We learnt where different taste buds are located on our tongue by tasting different things. Some were delicious others ...yucky!!

In September, the Smartkids Big Kids celebrated the Mid-Autumn Lantern Festival together at the Thao Dien campus. Everyone brought their lanterns to go on a walk around the compound. We had lots of fun ducking under trees and looking at the flowers and fruit trees growing near the road. After snack we did an action story of the lady in the moon and received beautiful Vietnamese masks and wands from our friend at SK TD , who is from Hanoi! **Thank you !!**

Big Birthday News

Niccolo has returned!

Dates to remember:
Parent teacher meetings :
23-27 November
Last day: **18 December**

Sadly we had to say good - bye to **Oscar** who went to join his sister at ISHCMC

In October Smartkids celebrated its 9th Birthday and Mila turned 4!
