

Green Group News

In the Green Group, Term 2 is all about exploring our wonderful world! We've started by learning about Vietnam. Learning and understanding more about the country that we live in not only develops our awareness and sense of self, but also furthers our knowledge of the world around us. We've been discovering what makes Vietnam so special!

We tasted banh mi and fresh spring rolls which we made ourselves in the class. Following step-by-step instructions aids our cognitive development and listening skills. Preparing our own food also gave us a real sense of independence!

We carried baskets over our shoulders to 'sell' fruit to our friends! Balancing the baskets helped to develop our coordination and spatial awareness. We had a lot of fun pretending to buy and sell fruit!

We got creative and made our own conical hats, explored different natural materials found in Vietnam and created masterpieces using Vietnamese herbs dipped in paint!

Exploring the fragrant ingredients used in pho and practicing our chopstick skills!

Learning about ao dais, Vietnam's national dress.

Playing a traditional Vietnamese game!

Following our topic of Vietnam, we will learn about TET and watch a Dragon Dance at our Tran Ngoc Dien location! After the TET holiday, we will begin to explore the different countries that our classmates are from and learn about what makes them unique and special. Learning about other countries will expand our knowledge of the world, and help us to learn and respect different cultures and traditions.

We said goodbye to Hung and Jorrin in January as they moved up to the Big Kids! We'll miss them both!

We welcomed Lucy and Sophie to the class in January!

Thank you for your continued support in helping your child to bring an item related to the theme for Show and Tell. The children really enjoy taking part and it is great for their confidence and language and communication skills!

Chúc mừng năm mới!
Ms. Nikki, Ms. Elvie, Ms. Hang & Ms. Y
😊
