

Hello from the Yellow Group!

June 2014

We have had a great term! We started learning about science with topics about the weather and plants. We then talked about the different aspects of the farm, and where our food comes from. Next, we discussed about the different people in our community and the ways they help us. We have welcomed Ms Naomi into our room and she has been a great addition! The kids have done a wonderful job showing her how to be a part of SmartKids!

Science!

We did a whole unit on Science! We talked about weather, and did experiments about wind and rain. We also learned about plants and how they drink water. We even got to plant our own seeds!

The Farm!

We spent a few weeks talking about the farm! We learned that food such as milk and popcorn comes from the farm! We also did a big farm race, and did lots of crafts! We talked about Easter and went on a big Easter Egg Hunt with all our TND friends! So much fun!

Dress Up Day, and Spa Day!

Philippa

We talked about the different people in our community and the different ways they help us! Then we had a special dress up day as the person we want to be when we grow up! We had a special spa day when we did our hair and painted our faces! Don't we look great!
