

News from the Blue Group

October 2016

We've done so much already! We've welcomed some new friends to the Blue Group: Pratyush

Ms. Shendie

Vincent

We've had so much fun learning about dinosaurs and decorating our classroom with them! We especially liked making our stegosaurus fossil! We also had fun learning about ourselves and our friends and families.

We learned about dinosaur fossils found in our countries and about what the world was like back then. We really liked making the planet earth and shaking all the continents apart!

We've been developing new skills, such as compromising and working together in a group, following instructions, and learning about our self-image!

We learned about our ages and celebrated ZJ's birthday! He turned 4!

We also celebrated the Mid-Autumn Festival with a parade!

We've been building up our confidence with new activities and responsibilities, such as being the Circle Time leader.

We've been taking fun risks, such as doing obstacle courses over a crocodile river! And meeting Ms. Katy's dog, Ruby.

We made a gift for Smartkids' 10th birthday. And now we've started learning about Halloween and things

that are real/not real and coping with difficult emotions such as fear. We are really looking forward to our dance party with the other Big Kids' classes! Afterwards we will begin Jolly Phonics. Also coming up are Parent-Teacher meetings from November 16 to 23. Please look for a schedule that will be posted outside the blue door. Take care! ~ Ms. Katy & Ms. Shendie
